

THE OMAHA DAILY BEE.

E. ROSEWATER, Editor. PUBLISHED EVERY MORNING. TERMS OF SUBSCRIPTION: Daily (with Sunday) One Year, \$1.00...

COMPLETED IN THE SENATE.

The Wilson tariff bill passed the house of representatives on Thursday, February 11. Yesterday this measure, as revised and amended by the democrats of the senate finance committee, was submitted to the full committee.

A CHANCE FOR THE MONROE DOCTRINE.

The United States senate on Wednesday agreed to a resolution requesting information from the president as to "whether the government of Great Britain has occupied Bluefields or any other place on the Mosquito reservation in the state of Nicaragua with a military force, and the character and strength of such force and the claim of authority of that government to occupy that country."

THE CONDUIT BUGBEAR.

The ordinance embodying the contract with the Pardee Electric Light company and the bond filed by that company were referred at the last council meeting to the committee on judiciary and telegraph and telephone.

RECIPROCITY AND RETALIATION.

There was sent to the senate on Wednesday the correspondence between this government and the governments of Colombia, Venezuela and Hayti, relative to the retaliatory proclamation against those countries by the last administration, as authorized in the reciprocity clause of the tariff law of 1890.

THE TROUBLE-SOME SECOND TERM.

The historian McMaster reviews in the New York Press the first year of Cleveland's second term in the temper of a partisan rather than a historian. He makes the concluding remark that the observations of the seven presidents who prior to Cleveland had served themselves only one term, "has ever closed his second term with anything like the success and popular repute with which he ended his first."

WHILE PASSING.

Be sure to step in and see those new beauties in the shape of spring overcoats. All the newest creations in every known cloth, made up in the most elegant styles we are showing and at hard time prices. So low, in fact, that they are nearly 20 per cent lower than last year.

THE BOARDER'S WRATH.

The landlady jumped the boarder because he had tried to get out of the house before the others. She had done it before the others had a chance to say a word. "You may call me Jones or Brown," he said to her. "But you shall not call me down."

PROSPECTIVE MUSIC.

There will be music in the full band in the senate when Senator Hill's resolution comes up for consideration. It seems to be a foregone conclusion.

THE HILL PROPHESY.

The Hill proposition will scarcely get support enough to pass. It will certainly accomplish this much, it will defeat the Wilson bill. The senate will have a majority of only three, and the off split of the Hill coalition blocks further progress on the part of the Wilson bill supporters.

TAXING INHERITANCE AS AN INCOME.

Just before the income tax schedule was incorporated into the Wilson bill in the lower house of congress it was amended so as to include in the computation of individual income whatever might have been received during the year in the form of bequest or inheritance. The tax of 2 per cent is to be levied upon this sum in excess of \$4,000 just as upon incomes regularly derived from other sources.

ONE YEAR OF GROVE.

Indianapolis Journal: One year of Cleveland; and the worst of it is there are three years more of him. The first year of President Cleveland's second term began in a howling March storm—truly prophetic of a political twelfth month. The second year began in one of the most mellow and balmy of March days. We predict a better year for the administration.

NEBRASKA AND NEBRASKANS.

The Teumish Journal has closed its fifth year. A three weeks' revival at Wallace resulted in 163 conversions. The Teumish Journal will hold an irrigation convention and listen to the new gospel of water on March 17.

WASHINGTON BUREAU OF THE BEE.

It was sugar and the scandal connected with the speculation in refinery stock which forced Chairman Voorhees and his associates to decide to report the Wilson tariff bill to the finance committee and make it public to-day. It was felt to be impossible longer to defer public opinion and the growing indignation of the senate by continuing to hold the bill in the secret possession of a few men who were daily charged with using their confidential information for their personal profit.

ALL FOR THE TRUST.

The Wilson bill as amended by the democratic senatorial tinkers places a duty of 1 cent a pound on all raw sugar; on sugar above 80 degrees and not above 90 this duty is increased by one-half cent; on refined sugar the duty is nearly one cent for each degree; between 90 and 96 degrees, 1.02 cents for each degree; above 96, 1.4 cents. When translated into cents per hundred pounds, the duty on refined sugar will amount to nearly one cent for each degree; between 90 and 96 degrees, 1.02 cents for each degree; above 96, 1.4 cents.
